

Application Screens — Annotated

Every screen in the internal-audit platform, captured from the running application and marked up in place. On each screen, numbered pins call out the elements, and a footer band names the screen, explains what it is for, and lists what each pin points to.

The main set is captured as an administrator. A closing section re-captures the auditee’s own screens while signed in *as the auditee*, so you can see the permission-scoped experience.

WHAT THE PINS MEAN (SHELL, COMMON TO EVERY SCREEN)

- 1

Module navigation — the left rail, filtered to your permissions.
- 2

Global search, plus theme, text-size and language.
- 3

Signed-in account and sign out.
- 4

Screen title and its primary actions.
- 5

The screen’s main workspace (described per screen).

SECTION

Getting started

3 screens

The single sign-in page. Staff authenticate with their bank username and password; sessions are permission-scoped, so each user only sees the modules their role allows.

The image is a composite of three parts. The top part is a large purple gradient banner. On the left side of the banner is a white shield icon with a checkmark inside. To the right of the icon, the text 'AuditX Enterprise' is written in a large, bold, white font. Below this, 'Internal Audit Platform' is written in a smaller white font. Further down, there are three navigation links, each preceded by a small white icon: a checkmark for 'Planning · Audits · Exceptions', a shield for 'Audit Trail · Sanctions', and a lightbulb for 'Analytics · Coverage'. The bottom part of the image shows a white login card. At the top left of the card is the AuditX Enterprise logo. To its right is the text 'AuditX Enterprise' and 'INTERNAL AUDIT PLATFORM'. Further right is a language selector showing 'EN' with a dropdown arrow. Below this is the heading 'Sign in' and the instruction 'Use your corporate credentials to continue.' There are two input fields: the first is labeled '1' and 'Username*' with a person icon; the second is labeled '2' and 'Password*' with a lock icon and a toggle eye icon. Below these fields is a blue button labeled '3' and 'Sign in'. Below the button is the text 'or' and a button labeled 'Use Windows SSO' with a monitor icon. At the very bottom, there is a numbered list: '1 Bank username.', '2 Password — sessions are scoped to your role's permissions.', and '3 Sign in.'

Dashboard

The landing workspace after sign-in. It summarises the work that matters to the signed-in user — open audits, findings awaiting action, evidence requests and upcoming deadlines — with quick links into each.

Ada Min admin@auditx.co.uk

1 Module navigation — switch between audit areas (filtered to your permissions).

2 Global search, plus theme, text-size and language controls.

3 Signed-in account and sign out.

4 Screen title and its primary actions.

5 KPI tiles and work queues tailored to the signed-in user.

The auditee worklist. When an auditor requests a document, it lands here; the auditee uploads the requested files straight against each request, and the status flips to Received on the auditor's side.

The screenshot displays the AuditX Enterprise Internal Audit Platform interface. The layout includes a top navigation bar, a left sidebar, and a main content area. Numbered annotations (1-5) highlight specific UI elements:

- 1** Module navigation — switch between audit areas (filtered to your permissions).
- 2** Global search, plus theme, text-size and language controls.
- 3** Signed-in account and sign out.
- 4** Screen title and its primary actions.
- 5** Outstanding document requests, each with an upload action.

The interface shows the 'My evidence requests' section, which is currently empty, displaying a message: 'Nothing requested. You have no outstanding document requests.' The sidebar lists various audit areas: Dashboard, My evidence requests (selected), AUDIT (with a dropdown arrow), Audit Universe, Planning, Audits, Engagement Lifecycle, Coverage, Risks, Controls, Regulations, Exceptions, Root-cause gaps, COMMITTEE, INSIGHTS, SANCTIONS, ACCESS CONTROL, CONFIGURATION, and PLATFORM.

Audit Universe — Entities

The catalogue of everything that can be audited — branches, processes, systems, products. Each entity carries an inherent-risk score that drives how often it is picked up in the annual plan.

Ada Min

adamin@auditx.com

1Module navigation — switch between audit areas (filtered to your permissions).

2Global search, plus theme, text-size and language controls.

3Signed-in account and sign out.

Ada Min

Lets the organisation name its own answer options per response type — the words behind Pass / Fail / Partial and any other set — so checklists speak the bank's language.

Response labels

Define the conclusion options auditors pick for each response type. The engine derives Pass/Fail/N-A from each option, so scoring and findings keep working.

Pass / Fail / N-A items Built-in defaults

Label	Score	Finding	N/A	Comment
Pass	100	☐	☐	☐
Fail	0	☒	☐	☒
N/A		☐	☒	☒

+ Add option

Score 0-100 feeds analytics. "Finding" marks the option as a deficiency (raises to the exception worklist). "N/A" excludes it from scoring. "Comment" forces a comment when chosen.

Yes / No items Built-in defaults

Label	Score	Finding	N/A	Comment
Yes	100	☐	☐	☐
No	0	☒	☐	☒
N/A		☐	☒	☒

+ Add option

Score 0-100 feeds analytics. "Finding" marks the option as a deficiency (raises to the exception worklist). "N/A" excludes it from scoring. "Comment" forces a comment when chosen.

Response Labels

Lets the organisation name its own answer options per response type — the words behind Pass / Fail / Partial and any other set — so checklists speak the bank's language.

The screenshot displays the AuditX Enterprise Internal Audit Platform interface. The top navigation bar includes the AuditX logo, user profile, search bar, and language settings. A left sidebar contains a menu with categories like Dashboard, My evidence requests, AUDIT, COMMITTEE, INSIGHTS, SANCTIONS, ACCESS CONTROL, CONFIGURATION, and PLATFORM. The main area shows the 'Engagement Lifecycle' section, which is a portfolio board of engagement cards. These cards are organized by lifecycle stage (Planning, Fieldwork, Reporting) and status (Waiting on me, Remediation, Under Review). Each card provides details about the engagement, its completion progress, and actions like 'Distribute report', 'Verify & close exception', or 'Set up team & checklist'. A bottom legend explains the numbered callouts: 1. Module navigation, 2. Global search, 3. Signed-in account, 4. Screen title, 5. Engagements as cards.

Engagement Lifecycle

Every engagement's journey — and your next step at each stage.

Engagement Lifecycle — portfolio board

A portfolio board of every live engagement grouped by lifecycle stage (planning → fieldwork → reporting → closed), giving audit management a single view of where everything sits.

- Module navigation — switch between audit areas (filtered to your permissions).
- Global search, plus theme, text-size and language controls.
- Signed-in account and sign out.
- Screen title and its primary actions.
- Engagements as cards across lifecycle columns.

One engagement's journey through its stages, surfacing the next best action and any blockers so the lead auditor always knows what to do next.

The screenshot displays the AuditX Enterprise Internal Audit Platform interface. The left sidebar (1) contains a navigation menu with sections: Dashboard, My evidence requests, AUDIT (Audit Universe, Planning, Audits), Engagement Lifecycle (highlighted), Coverage, Risks, Controls, Regulations, Exceptions, Root-cause gaps, COMMITTEE, INSIGHTS, SANCTIONS, ACCESS CONTROL, CONFIGURATION, and PLATFORM. The top header (2) shows 'Internal Audit Platform' with a search bar and controls for theme, text size, and language (EN). The main content area shows the 'Credit Risk Review FY2026' engagement (3) in the 'Remediation' stage. A timeline (4) lists stages: Setup, Planned, Fieldwork, Under review, Remediation (current), Reporting, and Closed. A callout box for the Remediation stage indicates 'YOUR NEXT STEP' is to 'Verify & close exception'. The bottom footer (3) contains the user's name 'Ada Min' and a sign-out button.

Engagement Journey / next-best-action

Signed-in account and sign out.

4

Screen title and its primary actions.

5

Finding narrative, MAP, owner and remediation evidence.

Groups findings by their underlying root-cause gap so systemic weaknesses — not just individual issues — become visible and can be remediated at source.

The screenshot displays the AuditX Enterprise Internal Audit Platform interface. The left sidebar (1) contains a navigation menu with items like Dashboard, My evidence requests, and various audit categories. The main header (2) includes the platform name, a search bar, and user controls. The main content area (4) is titled 'Root-cause Gaps' and features a description, a status filter (5) set to 'Open', and a table of findings. The table has columns for Title, Owner, Findings, Target Date, and Status. One finding is listed: 'No SoD policy' by 'Mary Manager' with 1 finding and an 'Open' status. A 'New gap' button is in the top right. Annotations 1-5 highlight specific UI elements: 1. Module navigation sidebar, 2. Global search and user controls, 3. Signed-in account and sign out, 4. Screen title and primary actions, 5. Findings clustered by root-cause theme.

Root-cause Gaps

Systemic weaknesses that surface across multiple findings, tracked to closure.

The reporting

- 1 Module navigation — switch between audit areas (filtered to your permissions).
- 2 Global search, plus theme, text-size and language controls.
- 3 Signed-in account and sign out.
- 4 Screen title and its primary actions.
- 5 Generated reports across engagements.

The templates that define report structure and branding, so every report the bank issues has a consistent, professional format.

The screenshot displays the AuditX Enterprise Internal Audit Platform. The interface is divided into three main sections: a sidebar, a top header, and a main content area.

Sidebar (1): Contains navigation links for various audit areas: Dashboard, My evidence requests, AUDIT, COMMITTEE, INSIGHTS, SANCTIONS, ACCESS CONTROL, CONFIGURATION, Org units, Templates, Response labels, **Report Templates** (highlighted), Report Schedules, Notifications, Configuration, Reference data, Exception rules, and PLATFORM.

Top Header (2): Features the AuditX Enterprise logo, a search bar with the text "Search audits, plans, exceptions...", and user controls including a theme icon, a text icon, and a language dropdown set to "EN".

Main Content Area (4): Titled "Report Templates", it includes a subtitle "Define and activate the templates used to generate audit reports." and two primary actions: "+ New template" and "Refresh". Below this is a table (5) listing the report templates.

NAME	VERSION	STATE	CREATED
Default audit report	v1	Active	Aug 12, 2026, 7:01:49 AM

Annotations:

- 1: Module navigation — switch between audit areas (filtered to your permissions).
- 2: Global search, plus theme, text-size and language controls.
- 3: Signed-in account and sign out.
- 4: Screen title and its primary actions.
- 5: Report layout templates.

Scheduled, recurring report generation and delivery — set a report to run and be distributed automatically on a cadence.

The screenshot displays the AuditX Enterprise Internal Audit Platform interface. The sidebar on the left contains a navigation menu with items like Dashboard, My evidence requests, and various audit areas. The top header includes a search bar and user controls. The main content area is titled 'Report schedules' and shows a 'No report schedules' message with a 'New schedule' button. Numbered callouts (1-5) are placed over the interface to highlight specific features: 1 points to the sidebar navigation, 2 to the global search bar, 3 to the user profile/sign-out controls, 4 to the 'Report schedules' title and primary actions, and 5 to the 'Recurring reports generated and emailed to recipients automatically.' text.

Governance rules

Guardrails for annual planning and audit launch.

☐ Allow overlapping annual-plan periods

When on, new or edited plans may cover periods that overlap an existing plan. When off, the overlap is rejected.

☐ Allow launching audits before plan approval

When on, plan items can be turned into audits before the annual plan is formally approved. When off (default), audits can only be launched from an approved plan.

☐ Allow direct edits to an approved plan

When off (default), an approved plan is fully locked — the only way to change it is a material revision, which re-opens it for Audit Committee re-approval. When on, a minor revision (shifting an item's dates) is also allowed directly, with no re-approval.

Bank Settings / Administration

Ada Min seniordirector@auditx.com

Connections to outside systems — email, Teams, SMS and others — configured and health-checked here so notifications and hand-offs actually land.

The screenshot displays the AuditX Enterprise Internal Audit Platform. The interface is divided into several sections:

- Header:** Includes the AuditX logo, a search bar, and user controls (theme, text size, language).
- Sidebar:** Contains navigation links for Dashboard, My evidence requests, AUDIT, COMMITTEE, INSIGHTS, SANCTIONS, ACCESS CONTROL, CONFIGURATION, and PLATFORM. The 'Integrations' link is highlighted.
- Main Content Area:**
 - Integrations Section:** Features a title 'integrations' and a '+ New integration' button. Below the title is a description: 'External systems AuditX connects to: directory, mail, storage, SIEM and more.'
 - Table:** A table with 5 columns: NAME, TYPE, HEALTH, STATUS, and an action column. It lists two integrations:

NAME	TYPE	HEALTH	STATUS	
Enterprise SIEM Feed Primary	SIEM	Unknown	Active	⋮
Primary SMTP Relay Primary	SMTP	Unknown	Active	⋮

Annotations 1 through 5 are present on the image, pointing to specific UI elements:

- 1:** Module navigation — switch between audit areas (filtered to your permissions).
- 2:** Global search, plus theme, text-size and language controls.
- 3:** Signed-in account and sign out.
- 4:** Screen title and its primary actions.
- 5:** Configured external integrations.

Outbound webhooks that push AuditX events to other systems in real time, with delivery status so failures are visible.

The screenshot displays the 'Webhooks' section of the AuditX Enterprise interface. On the left, a sidebar (1) contains navigation links: Dashboard, My evidence requests, AUDIT, COMMITTEE, INSIGHTS, SANCTIONS, ACCESS CONTROL, CONFIGURATION, PLATFORM, Integrations, and Webhooks (highlighted). The main header (2) shows 'Internal Audit Platform' and a search bar. The page title 'Webhooks' (4) is at the top of the content area, with a subtitle 'Outbound event subscriptions and their delivery history.' Below this are tabs for 'Subscriptions' and 'Deliveries'. A descriptive text states: 'Outbound notifications to internal endpoints. External URLs are rejected by the server.' A '+ New subscription' button is on the right. A table (5) lists subscriptions with columns for DESTINATION, EVENT TYPES, and STATUS. One entry is shown: destination 'https://ops.internal.bank/hooks/auditx', event types 'exception_raised, report_generated', and status 'Active'. A trash icon is next to the status. At the bottom left, a footer (3) contains the 'Webhooks' title, a description, and a user profile for 'Ada Nin'.

The notification engine — rules (when to notify), templates (what to say), and the dispatch log (what was sent). Drives the emails/SMS/Teams messages the platform sends.

3

Notifications

The notification engine — rules (when to notify), templates (what to say), and the dispatch log (what was sent). Drives the emails/SMS/Teams messages the platform sends.

4 Screen title and its primary actions.

5 Files flagged for integrity review.

Each user's own control over which notifications they receive and on which channel — a per-person settings page.

The screenshot displays the 'Notification preferences' page in the AuditX Enterprise Internal Audit Platform. The interface is structured as follows:

- 1. Module navigation:** A vertical sidebar on the left contains links to various audit areas: Dashboard, My evidence requests, AUDIT (expanded), Audit Universe, Planning, Audits, Engagement Lifecycle, Coverage, Risks, Controls, Regulations, Exceptions, Root-cause gaps, COMMITTEE, INSIGHTS, SANCTIONS, ACCESS CONTROL, CONFIGURATION, and PLATFORM.
- 2. Global search and controls:** The top header features a search bar with the placeholder text 'Search audits, plans, exceptions...', along with theme, text size, and language (EN) controls.
- 4. Screen title and primary actions:** The main content area is titled 'Notification preferences' with a subtitle 'Control which non-critical notifications you receive.'
- 5. Personal notification channel choices:** A settings card titled 'Notification preferences' contains two toggle switches: 'Receive non-critical SMS' (disabled) and 'Email digests' (disabled). A 'Save preferences' button is located at the bottom right of the card.

At the bottom of the page, a footer section titled 'My Notification Preferences' explains that each user has their own control over notifications. It also includes a user profile card for 'Ada Min' with the email 'ada.min@auditx.io'.

PERSPECTIVE

Signed in as the auditee

The same platform seen through an auditee's account. The left rail is filtered to just the modules their role grants, and each screen is centred on the auditee's own work — the documents auditors have asked them for, the findings assigned to them, and their self-assessment.

The landing workspace after sign-in. It summarises the work that matters to the signed-in user — open audits, findings awaiting action, evidence requests and upcoming deadlines — with quick links into each.
